

As news of the coronavirus (Covid-19) continues, we want to reassure you that NorthWest Construction is available should you need us. While we deal with difficult situations every day in the roofing and construction industries, this is new territory for us.

Our primary goal is to keep our team, customers and suppliers safe during this unprecedented time. All of our facilities are operational and taking every precaution to maintain a safe environment.

To that end, we are observing the best practices and doing the following to keep everyone safe and healthy.

- Routine cleaning and disinfecting of frequently touched surfaces
- Employing social-distancing whenever possible
- Regular handwashing; supplying hand sanitizer where washing stations are limited
- Masks for every technician
- Stay Home policy for all employees with any signs and symptoms
- No handshaking
- Limited carpooling
- No Contact Service | Estimating Measurements | Electronic Contract Signing via Docusign

When our technicians visit your home, rest assured that we will adhere to any local regulations or protocols you have in place.

We will continue to follow all guidelines from the CDC, OSHA, local and state Government and continue to address any changes to you and our TRC Team as they occur. We've asked that all employees actively monitor for signs and symptoms of Covid-19 daily and are implementing thermometer checks and symptom logs for our larger crews. We will continue to communicate changes to our policy and ask our customers to delay service if anyone at their home or business is ill.
